A BILL

To Be Entitled

An Act to regulate the business of buying, selling and otherwise dealing in used pipe line and oil and and gas equipment, defining dealers, peddlers and brokers engaged in said business, requiring the securing of bills of sale, and providing penalties for violation of this Act, and declaring an emergency. Be it enacted by the Legislature of the State of Texas:

Section 1. (a) That "Pipe Line Equipment" is hereby defined to be all pipe, fittings, pumps, telephone and telegraph lines and all other material and equipment used as part of or incident to the construction, maintenance and operation of any pipe line for the transportation of oil, gas, water or other liquid or gaseous substance.

(b) "Oil and Gas Equipment" is hereby defined to be equipment and materials which are part of, or incident to, the development, maintenance and operation of oil and gas properties. Included in this definition is equipment and materials which are part of, or incident to the construction, maintenance and operation of oil and gas wells, oil and gas leases, gasoline plants, and refineries.

(c) "Pipe Line Equipment, Oil and Gas Equipment" shall be classed as "used materials" after such equipment has once been placed into the use for which the same was first manufactured and intended.

The term "used materials" shall mean any used pipe line equipment or oil and gas equipment as defined by this Act.

Sec. 2. (a) "Persons" shall mean and include persons, firms, partnerships, companies, corporations, associations, common law trusts, statutory trusts and other concerns by whatever name known or howsoever organized, formed or created.

(b) "Dealer" shall mean and include every person engaged in buying, selling, or otherwise dealing in used materials and who has a fixed,

designated place, or places of business, within this State.

(c) "Broker" shall mean an include every person engaged in buying, selling, or otherwise dealing in used materials, as agent for the seller of such used materials, or as agent for the buyer of such used materials, or as agent for both.

(d) "Peddler" shall mean and include every person who is not a dealer or broker, and who is engaged in the buying, selling or otherwise dealing in used materials.

(e) "Owner" shall mean and include every person who owns or acquires used materials and which is intended to be employed or is being employed in the business of such person as an incident thereto and is not owned or acquired for the purpose of resale.

(f) "Yard" shall mean the place where any dealer stores used materials, or keeps the same for the purpose of sale.

Sec. 3. Every dealer, broker or peddler as herein defined shall before purchasing any used materials at any time after the effective date of this Act, require a bill of sale for such used materials to be executed and acknowledged by the seller in the manner required by law for registration thereof containing the name and address of such dealer, broker or peddler, the serial number, if any, the kind, make, size, weight, length and quantity of the used materials so purchased, the date of the purchase, if different from the date of the bill of sale, the name and address of the seller, and the place of location of such property at the time purchased or acquired.

Sec. 4. The provisions of this Act shall not apply where the reasonable market value of purchases made is less than Twenty-Five (\$25.00) Dollars.

Sec. 5. Every person, dealer, peddler or broker who violates any of the provisions of this Act shall be guilty of a misdemeanor and upon a conviction shall be subject to a fine of not less than Ten (\$10.00) Dollars or more than Fifty (\$50.00) Dollars. The Attorney General of this State or any District Attorney or County Attorneys of this State shall be and is hereby authorized and empowered to enjoin in the name and behalf of the State of Texas any dealer, peddler or broker from con-

tinuing in said business in the State of Texas upon violation of any of the provisions of this Act.

Sec. 6. The fact that there is now no law in this State requiring dealers, peddlers or brokers in used pipe line, oil and gas equipment to secure a bill of sale before making purchases and the further fact that certain abuses have grown up in this connection creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three successive days be suspended, and said rule is hereby suspended, and this Act shall take effect and be in force from and after its passage and it is so enacted.

There is hereby appropriated out of the State Highway Fund for each of the fiscal years ending August 31, 1938, and August 31, 1939, the sums of \$50,000.00 which amount shall be transferred from the State Highway Fund to the General Fund of the State of Texas, in order that the State Highway Fund will bear its just part of the expense incurred by other State Departments in serving the Highway Department, and also to cover the cost of furnishing heat, water and power to the State Highway Department. The State Comptroller and the State Treasurer are hereby authorized and directed to transfer the amounts herein appropriated from the State Highway Fund to the General Revenue Fund either annually or semi-annually at any time during each of the said fiscal years.

Provided, that the above and foregoing amounts appropriated herein for the State Highway Department, and for services rendered by other Agencies of the State Government to the Highway Department, shall be paid out of the State Highway Fund upon warrants issued by the State Comptroller, as provided by Chapter 1, Title 116, Revised Civil Statutes, 1925, and amendments thereto; provided further that all funds or balances of funds on hand September 1, 1937, and all funds coming into the State Highway Fund, and derived from registration fees or from other sources after deducting the total of the specific appropriations herein made, are hereby appropriated to the State Highway Department for the establishment of a system of State Highways and the construction and maintenance thereof, as contemplated and set forth in said Chapter 1, Title 116, and Chapter 186, General Laws of the Regular Session of the Thirty-ninth Legislature, and amendments thereto.

The State Highway Commission is hereby expressly authorized to purchase, through the Board of Control, any additional equipment, motor vehicles and any and all other equipment of any kind or character necessary in the opinion of the State Highway Commission to properly carry out the work of said Highway Department, and said Highway Commission is expressly authorized and empowered to purchase as herein provided, through the Board of Control, any and all equipment, which is necessary, in the opinion of the Highway Commission, in order to make air maps of highways of Texas, or proposed highways.

Provided that no State Highway Funds shall be used or expended in the payment of full or partial salaries, or to participate in the supplementing of any salaries for any kind of work done for, by or under the supervision or direction of the State Highway Department, other than those amounts specifically provided in the above appropriations, where the total to be paid such additional respective employee from Federal, State, County, or other funds, exceeds the respective amount below listed, to-wit: File clerks, and typists at not exceeding \$1,200.00 each per year; book-keepers at not exceeding \$2,100.00 each per year; registration, warrant, voucher, comptometer or tabulating clerks, stenographers \$1,350.00 each per year; those performing secretarial duties at not exceeding \$1,500.00 each per year; resident engineers and division engineers at an average salary of not to exceed \$3,672.00 each per year, none to exceed \$4,896.00 per year; assistant division engineers, at not exceeding \$3,600.00 per year; any other additional positions not herein listed in the above itemized appropriations, at not exceeding the amounts specifically appropriated therein for such similar positions.

It is expressly provided that all salaries fixed in this bill by itemization or by rider for positions in excess of \$3,000.00 are fixed for the employees holding positions at the present time and based on loyal and efficient services for over five years in the State Highway Department. If in the event said positions are, during the biennium, filled by employees having less than five years employment with said State Highway Department, the amount of the appropriation shall be reduced twenty per cent (20%).

Provided, further, that the authorization that permits State Departments to excuse one-half of their employees at noon on Saturday is modified for the State Highway Department to provide that said Department

may set its closing time on Saturday and permit all employees to leave, provided the number of hours' work during the week shall be the same as provided in the General Appropriation Bill. This provision being granted inasmuch as the Highway Department cannot function efficiently with only half of the employees present.

Provided that all printing and stationery shall be purchased through the Board of Control and shall be confined to such articles and qualities as selected and contracted for by the Board of Control.

The Highway Department of the State of Texas is specifically authorized to supervise beautification of the State Highways in the State of Texas and provide necessary assistance therefor.

It is expressly provided herein that the State Highway Department is authorized to furnish to the Adjutant General's Department trucks for transporting men and material for the purpose of erecting air markers along State Highways.

The State Highway Department is expressly authorized to grant to day laborers twelve (12) days vacation with full pay to such laborers who have worked for said State Highway Department for over twelve (12) months.

In fixing itemized appropriations for a State Department the size of the Highway Department, experience has been that despite all caution some discriminations are found, and in order to permit the State Highway Department to off-set such, the Department is by this Act given authority, with a limit of Ten Thousand (\$10,000.00) Dollars for each year, to appropriate not to exceed that sum to adjust and make up salary differences, which, in their judgment, should be allowed where the duties of such person or persons affected entitle them to a wage rate generally outlined in this bill, and in accordance with the spirit of this appropriation. Where such adjustments are made, the State Highway Department shall furnish the State Comptroller of Public Accounts, monthly, a detailed statement of such adjustments, and what items are covered, as well as the status of the additional fund allowed. The Ten Thousand (\$10,000.00) Dollars maximum may be in addition to the total amount of this bill.

The Highway Commission is hereby vested with the authority to conduct and/or supervise the registration of motor vehicles in counties wherein the Commission has reason to believe and for cause shown that the laws regulating the registration of such motor vehicles is being violated.

There is hereby further appropriated under and by virtue of the Act of the Forty Fifth Legislature, Regular Session, creating a system of Compensation Insurance for employees of the State Highway Department, sufficient highway funds to carry out the terms and provisions of said Act, and the State Highway Department is hereby expressly authorized to employ a sufficient number of employees necessary to carry out the terms and provisions of said Act, but in no event shall salaries paid be in excess of the amount paid for the same or similar positions in any department of the State government as is shown in the departmental appropriation bill known as Senate Bill No. 138 of the Forty Fifth Legislature, Regular Session.

From and after the passage of this Act the Commissioner of the General Land Office of Texas and others, in any way or measure authorized to sell public land, shall be prohibited from selling or offering for sale, excepting to the Texas State Parks Board for the purpose of establishing

the Big Bend State Park, any and all land within the area described by the field notes herein, and belonging to the State of Texas or any unit of the State Government.

Provided, however, in the event it should prove advantageous to the State of Texas in acquiring land within this area to include other and adjoining lands than that comprised within the foregoing boundaries, then it will be permissible under this appropriation to acquire such additional lands in such amounts, provided the total amount purchased in said area does not exceed one million acres.

The Texas State Parks Board shall have the authority, out of this appropriation, to employ such assistance and employees as may be necessary from time to time for the accomplishments of the purposes of this appropriation, provided that any employee paid from this appropriation shall be paid the same rate as is provided for similar places in the general appropriation bill, and, provided further, that the total amount used for this purpose shall not exceed Ten Thousand Dollars (\$10,000). The members of the Texas State Parks Board shall not receive any compensation for their services in connection with the purchase of land in said Big Bend Park area, but shall be entitled to be reimbursed out of the appropriation for all necessary and actual traveling expenses incurred by them in carrying out the purposes of this appropriation. The Texas State Board, in acquiring and purchasing lands within said park area from private owners, shall not pay a greater price than an average of Two Dollars (\$2) per acre, exclusive of improvements thereon, provided this limitation shall not apply on lands acquired through condemnation proceedings. All lands purchased shall be acquired in fee simple title without any reservation of any character whatsoever, except such mineral reservations as may be retained in favor of the State under the statutes governing the sale of Public Free School Land in this State. Where lands have been sold by the State of Texas for the benefit of Texas Public School Fund on the deferred payment plan and there are now outstanding balances due from the purchasers upon obligations executed for the purchase of said land, and as a part of the consideration therefor, the Board shall place a value on the purchaser's equity thereon and pay such purchaser or purchasers therefor not to exceed an average amount of Two Dollars (\$2) per acre, exclusive of improvements thereon, and shall pay to the State of Texas through the Office of the Commissioner of the General Land Office, for the benefit of the Public Free School Fund, the amount of the unpaid balance due thereon.

Provided further, that under the provisions of this Act the Texas State Parks Board or any other agency of the State shall have no authority to convey to the Federal Government any of the mineral rights now vested in the State of Texas or which title may be in the State of Texas, or which may be acquired by the State of Texas.

The Texas State Parks Board is hereby authorized to purchase out of this appropriation any unsold Public Free School Land situated within the boundaries of said park area as above set out, which said land is to be acquired in fee simple title, with such mineral reservation as is now authorized to be retained by the State under the statutes governing such sales. Said land, when so purchased, shall become a part of the Big Bend Park area, and shall be transferred and conveyed by the Commissioner of the General Land Office to the Texas State Parks Board as now provided by law for the sale of such lands. The Commissioner of the General Land Office of the State of Texas shall prepare a list of the unsold lands within said area now owned and held by the State of Texas for the benefit of the State Public Free School Fund within said park area, as above defined, and shall deliver a copy to the Texas State Parks Board, and shall offer said lands for sale, as now provided by law, to the said Texas State Parks Board, all and any part of said land within said area, so owned by the State. It is expressly provided however, the funds herein appropriated shall first be used for the purchase of land owned by private

individuals, and after such amount of land as is necessary and desired for the establishment of said park is acquired, the remainder of said funds may be used to acquire school land adjacent to the land previously purchased.

Provided that the venue of any condemnation proceeding shall be laid in the county seat nearest to the land which is sought to be condemned but it shall in no case be laid in the county wherein the land is situated.

Provided further that it shall be unlawful for any person, firm, or corporation to accept or receive, directly or indirectly, any bonus, commission, or compensation of any kind or character, or anything of value whatever, by reason of or on account of, services rendered or to be rendered to the owner or owners of any of the lands herein described on account of the sale of such lands to the State Parks Board as herein provided; and in the event any person, firm, or corporation shall receive any bonus, commission, or compensation whatever on account of any sale of any of the lands herein described to the State Parks Board, in violation of the terms hereon, the State of Texas shall be entitled to recover double the amount of any such bonus, commission, or compensation so paid, and both the owner or owners of the land and the person, firm, or corporation receiving such bonus, commission, or compensation shall be jointly and severally liable for such recovery and for the payment of any judgment therefor in favor of the State.

unless he or she has been an employee of the particular department for not less than six calendar months preceding the vacation period.

Porters, It is specifically provided that all appropriations for porters as provided in this Act are made with the distinct understanding that it is the will of the Legislature that the said porters are to be under the direct supervision of the State Board of Control, irrespective of the fact that the items covering appropriations for the several porters in this Act may be carried as items under the appropriations of the various departments. It is further will and intention of the Legislature that the several items for janitorial supplies, irrespective of name, shall be judiciously used under the direct supervision of the Board of Control to the end that all State property covered in this Act shall be adequately and properly preserved and cared for, and that all fire hazards shall be reduced and kept to the lowest possible minimum at all times. To that end the State Board of Control is hereby specifically and directly authorized and directed to notify in writing the heads of the respective departments of any dereliction of duty, either of omission or commission, on the part of any porter as provided in this Act, and said departmental heads shall have said porter comply with the orders concerning the improvement of sanitary conditions and the removal of fire hazards; and if said porter fails or refuses to act in compliance with the orders of the Board of Control concerning said matters within three days after notification, the State Board of Control is hereby authorized and directed to file a written notice with the State Comptroller that said porter has failed or refused to comply with the orders of the Board of Control, and the State Comptroller thereupon shall not issue a warrant for the salary of said porter for any services rendered after the date of presentation of the Board of Control's notice to the State Comptroller. The heads of said departments shall immediately select another person of their own choice to fill the position of the porter thus removed from the payroll, and if the other or any successive porter shall fail to comply with the orders of the Board of Control, the State Comptroller shall also refuse to pay him further compensation in like manner.

No porter dropped from the departmental payrolls as provided herein shall be eligible to be reemployed in a similar capacity for any State department or State Court for a period of at least six months.

No appropriation made for more than one employee in the same item shall be paid for a different titled position in an amount exceeding the maximum fixed in said lump sum item for any one position.

United States Funds and Aid. The proper officer or officers of any State departments, bureaus, or divisions of State agencies are hereby authorized to make application for and accept any gifts, grants, or allotments of funds from the United States Government to be used on State cooperative and other Federal projects and programs in Texas, including construction of public buildings, repairs, and improvements. Any of such Federal Funds as may be deposited in the State Treasury are hereby appropriated to the specific purpose authorized by the Federal Government.

Political Aid and Legislative Influence Prohibited. (a) No department included in this Act shall use any of the means or funds appropriated to such department, either directly or indirectly, for the purpose of telephoning, telegraphing, or sending out literature, propaganda, letters, or bulletins, or any other matter, printed or written, that will influence, or tend to influence, in any manner, the election of any candidate for office or the passage or defeat of any law or appropriation affecting any department included in this bill; and provided further, that no stenographer or other employee whose salary is paid from State funds may be used or employed in any manner in the preparation or mailing out, or in any manner handling such literature, propaganda, letters, or bulletins, or any other matter, printed or written, that will influence, or tend to influence, in any way the election of any candidate for office or the passage or defeat of any law or appropriation affecting any department included in this Act, and no such work shall be done or performed in any of the offices or rooms of the Capitol or any other State building.

(b) It is hereby declared unlawful for any person employed in any capacity in any of the departments for which an appropriation is made under the terms of this Act to engage in or take part in any political campaign in relation to matters directly affecting the particular department in which the particular employee is employed, and/or concerning the election or reelection of any candidate for the head of the particular department by which such employee is employed; by "engaging in a political campaign" or "taking part in a political campaign" is meant and shall include distributing circulars, hand bills, posting pictures, handing out cards, making speeches, thereby soliciting or opposing the election of any candidate for office as head of such department whereby the offending employee is employed.

Any such employee, engaging in such inhibited and unlawful conduct, shall be subject to removal from his position and restrained from re-employment in such department for a period of one year by a judgment in the district court of the county wherein such unlawful activity occurred. Any ten (10) or more qualified voters, residents of such county, shall have the authority to institute a suit in a district court of such county, praying for the removal of such employee from such department, citing such employee and the head of the department, and upon final hearing, the allegations of the petition being sustained, the judgment shall be to discharge the employee and restraining the head of the department from reemploying such employee for a period of one year from the date of the judgment.

It is hereby further declared unlawful for any person authorized to use a State-owned automobile in connection with any business of the State, to use such automobile in connection with any campaign in which such department is directly interested, or in behalf of the campaign for reelection of the head of any department, and/or in any other manner, time or place than when such automobile is being used in the interest of and for the purpose of carrying out departmental business. Any person violating this Section shall, upon final conviction, be subject to a fine of not less than Fifty Dollars (\$50) nor more than Two Hundred Dollars (\$200). In the event such use of such automobile is being made with the knowledge of the head of any department, having charge of such automobile, then such department head shall also be liable to punishment in a fine of not more than Two Hundred Dollars (\$200). Any Court of competent jurisdiction in the county where this law is violated shall have jurisdiction to try such cause.

It is hereby made the duty of every department head to furnish every employee of his department a copy of the law set out in the preceding three paragraphs, and to take the receipt of such employee therefor. These receipts shall at all times be kept accessible for public inspection and failure of any department head to comply with this mandate shall constitute malfeasance in office, and upon judgement so adjudicating, such department head shall be removed from office.

Traveling Expenses. (a) No traveling expenses shall be claimed, allowed, or paid unless incurred while traveling on official business of the State. Any State official or employee entitled to traveling expenses out of State appropriations herein made, who is legally or officially required to be present at the trial of any State case, shall not claim traveling expenses from the State and also from the Court wherein said case is pending. If by oversight, duplicate claims are filed for said traveling expenses and collected, then said officers or employees shall reimburse and refund to the State Treasurer an amount equal to the respective amount collected under such witness fee and mileage claim.

(b) The State Comptroller shall not pay, and no State officer or employee of any of the departments or other agencies of the Government shall include in his traveling expense account any amounts for meals and/or lodging incurred within the city or town where such officer or such employee is stationed. Such employees as are stationed away from their main office or headquarters, who are not allowed traveling expenses where so stationed, shall be allowed such expenses when called to their main office.

(c) No traveling expenses shall be incurred by any State employee of any of the departments, or other agencies of the Government, outside of the boundaries of the State of Texas, except for State business directly concerning his own department or agency and no such expenses shall be paid from State appropriations or out of any local or auxiliary funds by the State Comptroller and/or other disbursing officer or employee of any agency of the Government, until and unless a written statement, signed by the Attorney General, advising that the purpose of the proposed trip, in his opinion, is for said State business purposes; which written opinion shall have been filed in advance with the State Comptroller, and signed duplicate thereof filed with the disbursing officer of such respective agency of the Government. This provision shall not apply to trips to Washington, D. C., made by the Attorney General's Department, whose business before the United States Supreme Court and certain Federal Commissions is mandatory, nor to the Adjutant General when appearing in Washington, D. C. before the War Department, nor to members or employees of the Railroad Commission attending hearings, conferences, or oral arguments held in other States or Washington, D. C., and involving rates and/or transportation matters; nor shall this provision apply to members of State boards, departments, and/or commissions, nor to the executive head of such State board and/or commissions. There shall be but one other person designated by said boards, departments, and/or commissions as such executive head.

(d) It is the intention of the Legislature hereby not to require advance permission of legally authorized out-of-the-State trips of peace officers in the extradition and return of fugitives from justice and escaped prisoners except as is already provided by law.

(e) All employees traveling at the expense of the State are hereby limited to the amount of Four Dollars (\$4) per day expenses for meals and lodging; it being specially provided that the employee shall obtain receipts for all amounts expended for all items costing in excess of fifty cents each, and shall file said receipts with their expense accounts, which expense accounts must be duly itemized and sworn to; and the State Comptroller is hereby expressly prohibited from paying any expense accounts which are not itemized and sworn to and accompanied by receipts as herein provided. It shall be the duty of the Board of Control of this State to furnish to all employees of the State covered in this bill necessary form for the printing of such receipts; nor shall this provision apply to members of State boards, departments, and/or commissions, nor to the executive head of such State boards, departments, and/or commissions. There shall be but one other person designated by said boards, departments, and/or commissions as such executive head.

(f) The following rules shall be observed by all State employees in rendering their expense accounts before any expense account shall be paid from appropriations herein made for "traveling expenses";

(1) There must be a concise statement of the duties performed, and the points from which the employee travels from the designated post of duty and all other towns visited and the object of such visit and of the specific expenses incurred.

(2) The name of hotel, restaurant, boarding, or rooming house at which meals and lodging are procured shall be given in every case where a receipt is required under this Act.

(3) Fees, as tips to waiters on dining cars, or at hotels or restaurants, shall not be paid out of State funds.

(g) It is expressly provided that the provisions of this Act, with reference to traveling expenses, shall not apply to the Governor and Lieutenant Governor of this State; nor shall these provisions apply to members of State boards, departments, and/or commissions, nor to the executive head of such boards, departments, and/or commissions. There shall be but one other person designated by said boards, departments, and commissions as such executive head.

(h) None of the moneys appropriated herein shall be spent for the washing and/or polishing of the same automobile more than one time per calendar month.

(i) No moneys herein appropriated shall be spent for the purchase of a passenger car in excess of Seven Hundred and Fifty Dollars (\$750), including the trade-in value of a used car, and this limited price shall cover a car equipped with bumpers and extra rim or wheel but not an extra casing and tube.

Part-time Employees. The head of any department of the State Government, or any board or commission of the State Government, may use part-time employees to fill any position provided for in this Act at a salary not to exceed more than one-half of the amount appropriated for such position for full-time work.

Salary and Other Provisions: (a) All annual salaries shall be paid in twelve (12) equal monthly installments, unless otherwise provided herein.

(b) The appropriations herein provided are to be construed as the maximum sums to be appropriated to and for the several purposes named herein, and the amounts are intended to cover and shall cover the entire cost of the respective items and the same shall not be supplemented from any other source; and no expenditures shall be made, nor shall any obligations be incurred, which, added to the actual expenditures, will exceed the amounts herein appropriated for any of the purposes named. Provided that the appropriations made herein for maintenance and miscellaneous items for the departments of the State Government and State parks may be used as a contingent fund for maintenance and miscellaneous items, except, however, that this provision shall not apply to any item where its expenditure is governed by the Statutes, and that no salaries or wages shall be paid out of any amounts transferred from other items to a contingent expense item. No salary for which an appropriation is made herein shall be paid to any person unless such person actually discharges assigned duties.

Additional Employee's Compensation. When any additional employees, other than those for which specific salary appropriations have herein been made, are employed and are to be paid out of contingent appropriations or other funds, such employees shall not be paid a larger amount than that provided in the regular appropriated salaries for similar positions in such department or agency, and in the event there are no similar positions within such department, then such additional employee shall not be paid a larger amount than that provided for similar positions in other departments or agencies. In the event laborers, skilled laborers, and mechanics cannot be obtained at the above mentioned salary scale, then the head of such department may pay for temporary employment only not exceeding the prevailing wage scale paid in the locality where the temporary service is to be rendered.

Audits. None of the appropriations herein made shall be used for the purpose of employing any firm, corporation or person excepting persons regularly and continuously employed by the state departments, to audit the expenditures or records of any department, board, bureau, or institution; provided, however, that if, in the judgment of the officer, officers or departments charged by law with disbursing the appropriations herein made, an audit is necessary, application for such audit shall be made to the State Auditor requesting that such audit be made; and in the event the State Auditor shall not, in his judgment, have available sufficient funds to make the necessary audit, then the officer, officers or departments having charge of disbursing said appropriations are authorized to direct the Comptroller to transfer in lump sum and add to the appropriation for the State Auditor's office herein made the amount which in the judgment of said officer, for the purpose of making said audit, and said audits shall be made from the amounts so transferred before the close of the fiscal year during which the transfer was made, and if the audit is not made during this designated period, then the money so transferred shall revert to the department or agency from which transferred.

Transfer of Employees. It shall be the duty of the head of any department to transfer an employee of his office to any desk or place within the department when necessary to perform the duties of the department and for the proper dispatch of business.

Employment of Aliens Limited. No money shall be paid out of any appropriation made herein for personal services for a longer period than ninety (90) days to any person who is not a citizen of the United States unless the person has begun naturalization proceedings.

Prison Employees. All guards and other prison employees shall have free medical attention and hospitalization from the prison physician and prison hospital when such employees have been injured while in the performance of their Prison System duties, as provided by House Bill No. 19 of First Called Session of Forty-first Legislature.

It is provided that any nurse employed by the State Health Department not receiving One Hundred and Twenty-five Dollars (\$125) per month under this Act may have her salary supplemented from Federal funds in the sum of Twelve Dollars and Fifty Cents (\$12.50) per month upon approval of the proper Federal authority.

Sec. 3. It is further provided that in the event the Statutes of the State of Texas provide that any of the amounts, fees, or funds herein appropriated be paid out of local or special fees or funds, that the same be so paid out of said local or special fees and funds instead of being paid out of the General Revenue Fund.

Sec. 4. If any section, subsection, or provision of this Act is for any reason held to be unconstitutional or invalid, such holding shall not affect the constitutionality or validity of any other provision or part of the Act.

Sec. 5. The fact that this is one of the general appropriation bills to provide for the support, maintenance, and operation of important departments and agencies of the State, and the crowded condition of the calendars of the two Houses of the Legislature, create an emergency and an imperative public necessity calling for the suspension of the Constitutional Rule requiring bills to be read on three several days and for the taking effect of the Act immediately upon its passage, and said Rule is hereby suspended and this bill shall take effect immediately upon its passage, and it is so enacted.

A BILL
To Be Entitled

An Act fixing and determining a method of per capita appropriations for educational institutions of higher learning, and declaring the policy thereof; prescribing certain rules and regulations to be followed in determining said appropriations; requiring audits; making appropriations for the support, maintenance, buildings, and improvements of the several State institutions of higher learning for the two fiscal years, beginning September 1, 1937, and ending August 31, 1939, both dates inclusive; and for certain other educational agencies of the State; prescribing certain restrictions concerning the expenditures of said appropriations; containing a savings clause; and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. Declaration of Policy. It is declared to be the policy of this Act to make appropriations from State funds to each of the several State institutions of higher education upon the basis of the number of full time students in attendance therein, with the exceptions hereinafter noted. It is considered that for the requirements of each of the several said institutions there should be appropriated the sum of One Hundred Seventy-five (\$175.00) Dollars for each full time student registered in the lower levels, consisting of the freshman and sophomore years, Two Hundred Twenty-five (\$225.00) Dollars for each full time student in the upper and graduate levels, consisting of junior and senior years and graduate work, and that, in addition thereto there should be appropriated the sum of Twenty-five (\$25.00) Dollars for each full time student in technical courses at each of said institutions. The term "full time student," as used herein, shall mean the equivalent of a student doing fifteen (15) credit hours of college work in each of the two semesters of a long session. The term "technical courses," as used herein, shall include all branches of engineering, agriculture above the freshmen year (excepting general agriculture), veterinary medicine and allied subjects, all upper classes in the laboratory sciences, vocational agriculture, vocational home economics, and the vocational industrial art, and a "full time student in technical courses" shall mean the equivalent of a student doing fifteen (15) credit hours in "technical courses" for each of the two semesters of a long session. For the purpose of this Act, and in order to give effect to the latest experiences of each of the several institutions herein referred to in instructional loads, the number of full time students in the upper and lower levels and in technical courses for the summer school of 1936 has been taken as a basis. To these have been added the number of full time students in the upper and lower levels and in technical courses for the long session of 1936-1937. The credit hours of each of the several institutions for the upper and lower levels and courses in technical instruction for the summer school of 1936 as reported in the biennial report of the State Board of Education, 1934-36, Bulletin No. 369 of the State Department of Education, Tables IA-XVA, inclusive, have formed the basis for calculating the

number of full time students in each of the levels at each of the several institutions. In calculating the number of full time students in both levels and in technical courses at each of the institutions herein referred to, the data for the long session of 1935-36, Tables I-XV, inclusive, of said Bulletin No. 369 of State Department of Education, have been considered. It has been assumed that the ratio of full time students and students in technical courses to the catalogue count, or registered students for 1935-1936 long session would obtain between full time students in 1936-1937, i. e., the number of registered students for 1936-1937 times the semester credit hours for 1935-1936 divided by the number of registered students for the long session of 1935-1936 equals the number of semester credit hours for the long session of 1936-1937. The result divided by thirty (30) equals the number of full time students for 1936-1937 long session. The number of full time students in technical courses has been similarly calculated for each of the several institutions upon the basis of their reports to the State Board of Education of the number of hours of technical instruction given for 1935-1936 long session, with the percentage of increase or decrease in enrollment added or deducted for the 1936-1937 long session. Multiplying the number of full time students in the lower levels by One Hundred Seventy-five (\$175.00) Dollars, the number of full time students in the upper levels by Two Hundred Twenty-five (\$225.00) Dollars, and the number of full time students in courses of technical instruction by Twenty-five (\$25.00) Dollars, and adding the three (3) sums, for each of the several institutions, the total salaries and maintenance for the long session and summer school for each of the years of the next ensuing biennium has been determined. For each of the said several institutions having a long term session enrollment of fewer than seven hundred fifty (750) full time students, ten per cent (10%) has been added to the salaries and maintenance to cover additional administrative and instructional costs. Items for extra-mural and extension services at other institutions are not included. Because of the peculiar type of work being done at North Texas Agricultural College, and John Tarleton Agricultural College the preponderance of technical courses of instruction in the lower levels, the high school work being offered specially at the latter, and the small enrollments at each, it is deemed advisable to apply the ten per cent (10%) differential to both institutions, and it has accordingly been done. For the fiscal years herein provided due to the financial condition of the State, seven and one-half (7½%) per cent has been deducted from the totals which each of the several institutions are entitled to under the provisions of this Section.

Sec. 2. (a) That all balances in the institutional funds of the several State institutions named in this Act, at the close of the fiscal year ending August 31, 1937, including balances in their revolving funds at that time, and the entire income to said funds during each of the two fiscal years ending August 31, 1938, and August 31, 1939, which are not otherwise appropriated for either or both of said fiscal years are hereby appropriated for their support, maintenance, operation, and improvement of said State institutions during each of the said fiscal years, respectively.

(b) In accordance with the Constitutional requirement that taxes for County purposes only be paid by the General Fund to counties in which are located endowment lands set aside to the University of Texas by the Constitution of the State of Texas and the Act of 1883, there is hereby appropriated to the State Comptroller of Public Accounts for such purposes the sum of not to exceed Thirty-four Thousand (\$34,000.00) Dollars for each of the fiscal years ending August 31, 1938, and August 31, 1939. Further, there is hereby appropriated to the State Comptroller of Public Accounts, out of the General Revenue Fund of the State, to pay interest on State of Texas bonds held by the Texas Agricultural and Mechanical College Federal Land Grant Fund, the sum of Ten Thousand Four Hundred Fifty (\$10,450.00) Dollars for each of the fiscal years ending August 31, 1938, and August 31, 1939, and to pay the interest on State of Texas bonds held by the Permanent Fund of the University of Texas the sum of Twenty-two Thousand Six Hundred Sixty-six

(\$22,666.00) Dollars, for each of the fiscal years ending August 31, 1938, and August 31, 1939.

Sec. 3. It shall be the duty of the State Auditor and Efficiency Expert of the State of Texas to audit all of the books and records of each of the institutions of higher learning herein to determine the correctness of the appropriations based upon the provisions of Section 1 of this Act. If any institution has received a larger appropriation than is authorized in this Act, it shall be the duty of said institution to pay into the State Treasury of this State for the General Fund from their local institutional funds any amount they are not entitled to or any excess appropriated to them under this Act.

Sec. 4. It is further expressly provided that until this Act is repealed or amended, the policies set forth herein shall be followed by each of the several institutions of higher learning in making appropriations for future bienniums.

Sec. 5. That the several sums of money specified hereinafter, also as much thereof as may be necessary, are hereby appropriated out of any funds in the State Treasury not otherwise appropriated to the several educational institutions and other educational agencies named in this Act, for their support, maintenance, buildings, operation and improvements, or other specified purposes for each of the fiscal years ending August 31, 1938, and August 31, 1939, respectively, as follows:

1. The Agricultural and Mechanical College of Texas.

There is hereby appropriated to The Agricultural and Mechanical College of Texas, out of the Available University Fund for each fiscal year ending August 31, 1938, and August 31, 1939, one-third ($\frac{1}{3}$) of all of the Available University Fund received from the Permanent University Fund arising from the lands appropriated by the Constitution of 1876 and by the Legislative Act of 1883, except income from grazing leases thereon, less its proportion of all expenses of administration, exclusive of the expenses of administering the grazing lease on said lands, together with any balance in said Agricultural and Mechanical College, University of Texas Available Fund for any previous fiscal year. up in accordance with the forms recommended by said committee in its publication entitled "Suggested Forms for Financial Reports of Colleges and Universities," which reports shall be subject to public inspection.

The governing boards of each of the several institutions, within forty-five days (45) after the close of each fiscal year of the biennium shall file with the Board of Control and the Governor an itemized schedule of salaries paid to all employees, including therein a list of names of all persons employed in any capacity by such institutions, who are paid for services during the fiscal year a total in excess of One Thousand (\$1,000.00) Dollars out of any funds from any source or of any character under the control of the Governing board and the name of each employee should be accompanied by a statement of the total of payments from any sources made to said employee at any time during the twelve (12) months of the fiscal year and the title of the positions or kind of service rendered, which reports shall be subject to public inspection.

Subsection 2. Salary Provisions. No salary appropriated herein shall be supplemented out of student fee funds, dormitory funds, or local funds, except out of the Pure Feed Fund at the Agricultural and Mechanical College or out of funds received from the United States Government or its agencies, unless so ordered by the governing board of the institution to which such salary or salaries apply, at a regular meeting with at least a majority of the members of such board present, and such order shall be entered in the minutes of the proceedings of said board and shall set forth fully the reasons therefor. No full time instructional salary as itemized herein shall be adjusted to exceed an amount above the maximum full professor's salary as herein itemized to be appropriated from the General Revenue Fund of the State for the particular institution to which said salary or salaries apply, unless the maximum salary is being received, in which case such adjustment may be made not to exceed ten per cent above such maximum salary so received. It is further provided that compensation for correspondence and/or extension teaching as provided herein and compensation from bequests and gifts, unless so limited by the donor, shall be excluded from the salary limitations of this paragraph. The rate of the salary paid an employee of any institution named herein for services during a summer session shall not exceed the salary rate paid the employee for the same or similar services during the long session of that institution.

Full time employees on twelve (12) months basis may receive not more than Two Hundred Fifty (\$250.00) Dollars for correspondence course and/or extension center teaching, and may not be paid additional money for summer school teaching, and full time employees on a nine (9) months basis may be paid for correspondence and/or extension center teaching or summer school or other services during the remaining three (3) months of the fiscal year, but may not receive more than Two Hundred Fifty (\$250.00) Dollars per annum, for correspondence course teaching during the fiscal year and/or extension center work during the regular nine (9) months session.

The board of regents or directors within their discretion and with good reason may pay smaller salaries than those itemized herein.

The board of regents or directors, within their discretion, are authorized to promote an individual on the staff to a higher position, vacated by the death or resignation of the previous incumbent at the salary provided for the higher position.

When any additional employees other than those employed to fill the positions itemized herein are employed, and are to be paid out of said appropriations or any other funds, such employee shall not be paid larger amounts than those provided herein for similar positions in such institutions or agencies and in the event there are no similar positions within such institutions then such additional employees shall not be paid larger amounts than those provided for similar positions in other state institutions, departments, or agencies.

No additional faculty or office employee may be added without the consent of the governing board.

Vacancies in positions may be filled by promotion of suitable persons now on the staff or by appointing new persons. If a present employee is promoted to a better position he may be paid the salary specified for such better position. It shall be the duty of the head of any institution or agency to transfer members of the faculty or other employees of the institution to any other position than those which such employees are now filling when necessary to increase the effectiveness and efficiency of the service or business affairs of the institution or agency. It is specifically provided that the institutions may pay smaller salaries to new employees than those received by the persons formerly holding the same positions.

Subsection (10). Estimates Required. If any executive officer of an institution named in this act shall fail or refuse to furnish estimates to the State Board of Control, as required by Article 642 of the Revised Civil Statutes of Texas, 1925, on or before the first day of April, 1938, and 1939, such fact shall be certified by the Board of Control to the State Comptroller of Public Accounts, who shall thereafter not issue his warrants upon any fund belonging to that particular institution for any purposes, until said estimate is filed with the Board of Control.

Subsection (11). Athletic or Extra-mural Department. The general provisions made in this act shall not apply to athletic or extra-mural departments, nor to positions not contained in the itemized appropriation act for the fiscal year ended August 31, 1933; and as to these exceptions, the governing board shall make such necessary rules and adjustments as may be deemed advisable.

Subsection (12). Postage Stamps. None of the money appropriated herein for postage stamps shall be spent except on warrants and checks made payable to a United States Post Office and the warrant or check shall be endorsed by the postmaster from whom the purchase is made.

Subsection (13). Printing and Stationery. All printing and stationery shall be purchased through the Board of Control and shall be confined to such articles and qualities as selected and contracted for by said Board, except said printing provided by law to be done by several of the State institutions. No embossed or engraved printing or stationery shall be purchased. This subsection shall not be applicable to any institution which operates its own printing plant.

Subsection (14). The governing boards of each of the several institutions herein appropriated for shall file for each institution under their respective jurisdiction, on or before October 1, 1938, in the Office of the Secretary of the State Board of Education a report showing the number of semester credit hours registered for, as well as the number of such hours completed, for the lower level, upper level, and in technical courses of instruction as those terms are defined in the biennial report of the State Board of Education for 1934-36, as well as the number of student registrations in the lower level and upper level for the long session 1936-37, 1937-38 and for the summer session of 1937 and 1938. Thereafter, said Board shall file a semester report showing the number of semester credit hour registrations in the lower level, upper level, and technical courses of instruction, as well as the number of student registrations in each classification as of the close of the registration for the second semester of the long session of 1938-39.

No money shall be paid out of any appropriation made herein for other than instructional services for a longer period than ninety (90) days, to any person who is not a citizen of the United States unless naturalization proceedings have been instituted before employment.

Subsection (16). The Board of Regents of The University of Texas and the Board of Regents of A. & M. College of Texas are hereby expressly authorized to create a position of vice president in each of said in-

stitutions, if in the opinion of said Boards it is advisable to create said position, and fix the salary for same out of local institutional funds at not exceeding eighty (80%) per cent of the salary authorized herein for the president of said respective institutions.

Subsection (17). If any section, sentence, clause, or part of this Act shall be held invalid by any court of competent jurisdiction, such holding shall not alter, change, or affect the remaining portions hereof, and it is hereby declared to be the intention of the Legislature to enact this said Act, and each sentence, section, clause, or part hereof independently and irrespectively of the invalidity of any part so declared unconstitutional or invalid.

Subsection (18). The fact that the above and foregoing is an Appropriation Bill to pay the salaries of officers, teachers, and employees, and to pay other expenses of operating, maintaining, and supporting the said educational institutions herein above named, for the two fiscal years beginning September 1, 1937, and ending August 31, 1939, both dates inclusive, and the further fact that the support, maintenance, and operation of said institutions are dependent upon the appropriation herein made create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days be, and the same is hereby, suspended, and that this Act is to take effect and be in force from and after its passage, and it is so enacted.

Subject to the terms hereof, the governing body of any city shall have power by ordinance to assess all the cost of constructing, reconstructing, repairing, and realigning, curbs, gutters, and sidewalks, and not exceeding nine-tenths of the estimated cost of such improvements, exclusive of curbs, gutters, and sidewalks, against property abutting upon the highway or portion thereof ordered to be improved, and against the owners of such property, and to provide the time, terms, and conditions of payment and defaults of such assessments, and to prescribe the rate of interest thereon not to exceed eight (8) per cent per annum. Any assessment against abutting property shall be a first and prior lien thereon from the date improvements are ordered, and shall be a personal liability and charge against the true owners of such property at said date, whether named or not. The governing body shall have power to cause to be issued in the name of the city assignable certificates in evidence of assessments levied declaring the lien upon the property and the liability of the true owner or owners thereof whether correctly named or not and to fix the terms and conditions of such certificates.

' If any such certificate shall recite substantially that the proceedings with reference to making the improvements therein referred to have been regularly had in compliance with the law and that all prerequisites to the fixing of the assessment lien against the property described in said certificate and the personal liability of the owner or owners thereof have been performed, same shall be prima facie evidence of all the matters recited in said certificate, and on further proof thereof shall be required. In any suit upon any assessment or reassessment in evidence of which a certificate may be issued under the terms of this Act it shall be sufficient to allege the substance of the recitals in such certificate and that such recitals are in fact true, and further allegations with reference to the proceedings relating to such assessment or reassessment shall not be necessary.

There is likewise hereby levied and assessed a tax of ten (10c) cents on each one hundred (\$100.00) dollars or fraction thereof over the first two hundred (\$200.00) dollars on all obligations relating to the sale of personal or real property in this State after the effective date of this Act. Be it enacted by the Legislature of the State of Texas:

Section 1. (Appropriation.) For the purpose of promoting public school interest and equalizing the educational opportunities afforded by the State to all children of scholastic age within the State, including sufficient funds to match Federal Funds appropriated for the purpose of conducting Vocational Agriculture, Home Economics, Trades and Industries, General Rehabilitation and Rehabilitation for Crippled Children, there is hereby appropriated out of the General Revenue Fund, Five Million Five Hundred Thousand (\$5,500,000.00) Dollars, or so much thereof as may be necessary, for the school year ending August 31, 1938, and Five Million Five Hundred Thousand (\$5,500,000.00) Dollars, or so much thereof as may be necessary, for the school year ending August 31, 1939, to be allotted and expended by the State Superintendent under the direction of the State Board of Education; provided that any unexpended balance occurring at the end of the year, 1938, in any allocation may be transferred and added to the appropriation for the year ending August 31, 1939.

Sec. 2. Scholastic Population of the District. State Aid under the

provisions of this Act shall be distributed in such a way as to assist all school districts of not fewer than twenty (20) scholastics and not more than five hundred (500) scholastics, located in district and consolidated and/or rural high school districts which have an average of not more than two hundred (200) scholastics of each original district composing the consolidated and/or rural high school districts unit, and all districts composed of entire counties having a scholastic population of less than five thousand (5,000); provided that the provisions of this section shall not apply to any school district containing forty-eight (48) square miles of territory or more; provided that schools in sparsely settled counties may be exempt from the minimum restrictions of twenty (20) scholastics; provided that in such cases the district applying for aid shall be levying and collecting the limit of local tax support as provided by general law. Sparsely settled counties shall be defined as those having less than one thousand four hundred (1,400) scholastic population in the common school districts. It is expressly understood that the provisions and limitations of this section and other sections in this Act do not apply to vocational aid, tuition aid, and aid for crippled children.

Sec. 3. Distance Between Schools. No aid shall be granted to any school under the provisions of this Act which is located within two and one-half ($2\frac{1}{2}$) miles of another school of the same race, unless on account of the condition of the roads and other physical features it is unreasonable and impracticable for the pupils to attend another school; provided that this restriction shall not apply to elementary schools in a consolidated and/or rural high school district nor to any district which at some previous election has voted to remove such conditions by consolidation.

Sec. 4. Teacher-Pupil Load. State aid under provisions of this Act shall be allotted upon the basis of one teacher for any number of scholastics from twenty (20) to thirty-five (35) and one (1) additional teacher for each additional thirty (30) scholastics, or fractional part thereof, re-

siding in the district. It is expressly provided that in the event pupils are transferred into the district the excess fractional part thereof shall not be less than two (2) scholastics. The basis for calculation shall be the net scholastic enumeration of white or colored race, as the case may be, including the transfers into the district, and excluding the transfers out of the district for the current year and there shall be deducted all scholastics who have completed the course of study in their home school, as authorized by the County Board of Trustees, provided that in unusual or extraordinary conditions of actual enrollment, an adjustment as to the number of teachers may be made by the State Superintendent, with the approval of the State Board of Education.

Sec. 5. Average Daily Attendance. No school shall be granted aid under the provisions of this Act whose average daily attendance is less than sixty-five per cent (65%) of the scholastic census enrollment for either white or colored school. Provided, the provisions of this Act shall not apply to any school where there is any kind of epidemic of sickness. Districts where parochial schools are maintained are exempt from the provisions of this Section.

Sec. 6. Tax Levy. No school district shall be eligible to receive aid under the provisions of this Act unless it shall be providing for the annual support of its schools by voting, levying, and collecting for the current year a local maintenance school tax, exclusive of the tax for interest and sinking fund for bonds, of not less than Fifty (50c) Cents on the One Hundred (\$100.00) Dollars, of property valuation in the entire district, or not less than Seventy-five (75c) Cents, inclusive of the tax for interest and sinking fund for bonds for the year ending of August 31, 1938; and providing further, that the property valuation shall not be less than said property is valued for State and county purposes. Any school district which shall after October 1, 1937, reduce its existing property assessment and/or existing tax rates, thereby enabling it to participate under this Act, shall not be eligible to receive aid from any of the funds herein provided; providing further that for the year ending August 31,

1939, no district shall receive aid unless it shall be levying and collecting local maintenance tax of not less than Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation, and provided further, that Fifty (50c) Cents maintenance tax, shall apply to sending districts.

Sec. 7. Provided the State Superintendent shall take into consideration, in fixing allowances to school districts, any loss sustained by said district by reason of the Federal Government buying lands for National forests, and by reason of the location in said districts of University Lands, and the State Superintendent shall be authorized to make allocations to said districts by virtue of losses sustained by said district by reason of Federal purchase of lands, the amounts to be fixed by the State Superintendent based upon existing facts and circumstances applicable to all other school districts.

Sec. 8. Salary Schedule. No part of the aid herein provided shall be used for increasing the monthly salary of any teacher, but funds provided for in this Act shall be used for the exclusive purpose of extending the length of the school term of the schools situated in the district receiving such aid on the basis of a schedule of teachers' salaries to be determined by the State Superintendent of Public Instruction with the approval of the State Board of Education, provided, however, that said agencies shall allow an increase of not more than twenty (20%) per cent for salaries less than One Hundred (\$100.00) Dollars per month allowed in schedules heretofore adopted and may allow not more than fifteen (15%) per cent increase on salary schedules in excess of One Hundred (\$100.00) Dollars per month allowed for the last preceding year. However, the basic pay in no event shall be less than Eighty-five (\$85.00) Dollars per month on eight months basis.

Sec. 9. Length of Term. All schools of the unaffiliated class receiving aid shall provide a term of approximately eight months. These schools shall be so classified by the County Board so as to provide as nearly as possible an eight (8) months term out of State, county, and local funds. Should there not

be sufficient funds to maintain the schools as herein stated, then aid may be granted subject to the other provisions of this Act. Should any school district eligible to receive aid under the provisions of this Act maintain a salary schedule in excess of the salary schedule as determined by the State Superintendent with the approval of the State Board of Education, the amount of aid received by such school district shall be reduced by the amount of such excess.

Nothing in this Act shall be construed as forcing the consolidation of any schools, nor shall any aid be withheld from any school for its failure to consolidate.

Sec. 10. High School Tuition. It is hereby expressly provided that a sufficient amount of funds appropriated by this Act shall be used for the payment of high school tuition not to exceed Seven and 50/100 (\$7.50) Dollars per pupil per month. High School tuition shall be paid according to the provisions of House Bill No. 158, General Laws, Regular Session, Forty-fourth Legislature, and subject to the limitation and restriction provided in Section 6 of this Act imposing tax obligations on sending district. Providing that the provisions of this Section shall not apply to granting of aid under terms of this Section for vocational education or crippled children. It is further provided that high school tuition aid, as above set out, shall be granted for pupils transferred to outside high schools for the Waco State Home at Waco, and from the Alabama and Coushatti Indian Reservation near Livingston; provided the aid so granted shall not exceed the per capita tuition charged other schools' transferred high school pupils by the high schools affected hereby.

Sec. 11. Transportation Aid. The County Superintendents and County School Board are hereby authorized to set up a system of transportation for the purpose of transporting high school pupils from their districts, to the nearest convenient accredited high school. The expense of such transportation shall be paid out of the funds hereby provided, not to exceed Two (\$2.00) Dollars per pupil per month. Provided, further, that in districts composing an entire county, high school transportation

aid as authorized in this Section may be granted for the purpose of transporting high school pupils within such districts to the most convenient accredited high school.

It is further provided that the districts through which these buses travel may make provisions with the County Superintendent and the County School Board to have any other children not provided for herein, transported within and between their respective districts, and said district may make application for State aid thereon to an amount not to exceed One (\$1.00) Dollar per month per pupil. Provided, that where regular buses do not run in sparsely settled sections of counties which are operating under a county unit system, the County School Board and County Superintendent are authorized to make provisions for the transportation of pupils within said districts, and may make application for State aid thereon to an amount not to exceed One (\$1.00) Dollar per month per pupil. Providing that all school districts containing one hundred (100) square miles of territory or more may receive transportation aid of Two (\$2.00) Dollars per month per pupil. And provided further, that like aid of One (\$1.00) Dollar per month per pupil shall be made in respect of transportation in any common school district in which there exists two school plants, one of which is a first class four (4) year high school and which said plants are separated by a distance of not less than two and one-half (2½) miles.

Sec. 12. Penalty Provision. Any district violating any of the provisions of this Act shall forfeit all rights to such aid and may be disqualified to receive any aid of any nature under any section of this Act for the current year. Should any school which would otherwise be eligible to receive aid agree, provide, or contract with teachers to pay a smaller monthly salary during the remainder of the terms following the granting of aid, provided out of local funds, than is paid out of State funds, then such school shall forfeit its rights to receive aid. Provided any census trustee who shall wilfully make any false report in his roll or summary shall forfeit the right of the district he serves to receive any

amount of money that may be provided for in this Act.

It is specifically provided herein that the State Board of Education, State Superintendent of Public Instruction, or any agency charged with the responsibility of administering the funds hereby appropriated shall not pledge the State nor incur obligations against said funds in any amount in any one year in excess of the amount herein appropriated, and it is the sense of this Legislature that the amounts herein appropriated shall cover in full all amounts to be spent for the purpose contemplated by this Act for the period covered by this Act. Whoever violates this provision of this Section shall be deemed guilty of a misdemeanor, involving official misconduct, and upon conviction thereof, shall be fined in a sum not less than Two Hundred (\$200.00) Dollars, nor more than One Thousand (\$1,000.00) Dollars, and shall be subject to removal from office.

Sec. 13. All expenditures for costs of administering the various funds named in this Act shall be paid out of the moneys appropriated in this Act and such expenditures shall not exceed the amounts authorized by the general appropriation bill.

It shall be the duty of the State Board of Education, and it is hereby authorized, to take such action and to make such rules and regulations not inconsistent with the terms of this Act as may be necessary to carry out the provisions and intentions of this Act, and for the best interest of the schools for whose benefit the funds are appropriated. It shall be the duty of the State Superintendent of Public Instruction to appoint the number of inspectors hereinafter authorized to make a thorough investigation, in person, of the grounds, building, equipment, teaching staff, and financial condition of each school applying for aid; and no aid shall be given unless it can be shown that all provisions of this Act have been complied with, and that such amount of aid is actually needed. It is provided that no application for Aid shall be approved until all

applications filed before October 1 of the current year have been considered; and provided further, each application shall, if the amount of money available is not sufficient to pay all approved applications in full, receive the same proportion of Aid as every other approved application.

It is further provided, that the application for Aid (including high school tuition) for the current year shall not be approved in an amount in excess of the amount of money available during the current year for all types of Aid herein provided for. Even though the application for Aid, on a basis of need shown exceed the amount of money available during the current year for all types of Aid, then each application shall be proportionately reduced so that the total of all approved applications for the current year will not exceed the amount of money available for said year for all types of Aid.

Sec. 15b. Warrants for all money granted under the provisions of this Act shall be transmitted to treasurers of depositories of school districts to which Aid is granted in the same manner as warrants for State apportionments are now transmitted. The amount of money granted for each type of Aid, except high school tuition, shall be set up as a separate account by the district receiving same and disbursements from said accounts shall be made only for the specific purpose for which the money was granted. If the money in said fund is used for any purpose other than that for which allocated then said district shall not be eligible to receive any type of Aid for the following year. It shall be the duty of all Treasurers of Depositories to make annually, before September 10, of each year, itemized reports under oath to the proper authorized authority of the expenditures of all money granted under the provisions of this Act. It shall also be the duty of each County School Superintendent, and each secretary of the school board of an independent school district to file with the proper authorized authority, before September 10 of each year, a sworn account detailing the receipts and disbursements of all Rural Aid Funds, with correct cash balance on August 31, verified by the deposi-

It is provided that all unused balances in Rural Aid Funds in any district on August 31, shall be returned to the proper authorized authority; provided however that the balances herein providing for the return of moneys shall be subject to the obligation of districts holding claims against that fund and subject to re-apportionment of the obligation of the receiving district thereof.

Not later than January 15 of each year, the State inspection of all Rural Aid schools shall be completed. Initial payment by warrant of not more than fifty per cent (50%) of the total amount allotted to any one school shall then be made, and the final payment shall be made on a percentage basis to such school in such a manner that all schools, whose applications for Aid have been approved, will receive the same proportion of Aid. After final payment is made, each district shall by August 31, of each year file with the proper authorized authority a signed receipt acknowledging full payment of their approved claim and/or request. It is provided that any amount set aside for schools not having reached sixty-five per cent (65%) attendance shall be prorated among the schools eligible to receive Aid or final payment.

Sec. 16. Counties with Less Than One Thousand Four Hundred (1,400) Scholastics. It is hereby provided that schools in sparsely settled counties having less than one thousand four hundred (1,400) scholastic population in the common school districts, may be exempt from the minimum restriction of twenty (20) scholastics; provided, that each district applying for aid is levying and collecting the limit of local support as provided in Section 6, of this Act. Provided, the State Department of Education may grant aid to schools in sparsely settled districts without regard to the number of scholastics or the duration of the term of each school.

Sec. 17. Transfer of Entire District. On the agreement of the board of trustees of the districts concerned or on petition signed by a majority

of the qualified voters of the district and subject to the approval of the County Superintendent and State Superintendent, the trustees of a district which may be unable to maintain a satisfactory school may transfer its entire scholastic enrollment, or any number of grades thereof, to a convenient school of higher rank, and in such event, all of the funds of the district, including the State aid to which the district would otherwise be entitled under the provisions of this Act, or such proportionate part thereof as may be necessary, may be used in carrying out said agreement.

Sec. 18. Disbursement. Warrants for all money granted under the provisions of this Act shall be transmitted by the State Superintendent of Public Instruction, when the account for same has been audited by the State Auditor, to Treasurers of Depositories of school districts to which aid is granted in the same manner as warrants for State apportionments are now transmitted and it shall be the duty of all Treasurers of Depositories to make annually itemized reports under oath to the State Superintendent of Public Instruction of the expenditures of all money granted under the provisions of this Act.

Sec. 18a. The State Auditor is hereby instructed to audit such accounts immediately in order that warrants may be transmitted promptly. It is further provided that the sum of Thirty-Six Hundred (\$3,600.00) Dollars is hereby appropriated, from the funds herein appropriated, for the school year ending August 31, 1938, and the sum of Thirty-Six Hundred (\$3,600.00) Dollars for the school year ending August 31, 1939, to be used in defraying expenses of said audit service.

Sec. 19. In counties which constitute a single school district, and in which there is no governing body designated as the County School Board, the duties authorized by this Act to be performed by the County School Board are hereby conferred upon the existing governing bodies of such districts, and all aid shall be granted on the basis of need after proper budgeting, the same as herein provided.

Sec. 20. Miscellaneous Provisions.

Rural schools accepting the provisions of this Act shall be entitled to share in the distribution of State and County Available School Funds and in all other school funds in the same manner as all other school districts; and in case high school grades are maintained, the community shall still be entitled to participate in the distribution of any aid that may be extended by the Legislature of Texas for vocational or industrial purposes to high school of the State; provided, however, that no school or school district shall be denied aid for failure or refusal to buy any books, equipment, charts and/or school supplies offered by any person, firm, or corporation unless the minutes of the State Board of Education of Texas show that said books, equipment, charts, and/or supplies were approved by a unanimous vote of said State Board of Education.

Provided that, if an incorporated city, town or village is levying and collecting taxes for the support or benefit of its municipal school district in an amount not less than provided for in Section 6 of this Act, and/or for interest and sinking funds for bonds or other indebtedness issued or incurred for the direct benefit of such municipal school district, then, in any such event, such taxes so levied and collected by such incorporated city, town or village shall, for the purpose of this Act, be considered as taxes levied and collected by such school district; and providing further that high school tuition of not to exceed Two Dollars and 50/100 (\$2.50) Dollars per scholastic shall be granted for pupils in consolidated and rural high school districts composed of not less than three (3) original districts, and whose valuation is less than Fifteen Hundred (\$1,500.00) Dollars per scholastic population, and whose budget shows a need therefor, and that maintains an affiliated high school of not less than sixteen (16) units.

Sec. 21. It shall be the duty of the State Board of Education and the State Superintendent of Public Instruction to pay by warrant not more than Fifty (50%) per cent of the total amount allotted to any one school as an initial payment, and that the remaining payments shall be made on a percentage basis to the schools in such manner and amounts

that the total expenditures for any one year shall not exceed the total appropriation for that year.

The State Board of Education and the State Superintendent of Public Instruction are hereby prohibited from paying any one or more schools its or their allotment in an amount greater, on a percentage basis, than is paid any other school. This provision shall apply to all allotments and claims and/or appropriations provided for in this measure.
